The Decofor[®] system

THE DECOFOR SYSTEM IS A
COMPLETE DECORATIVE
FENCING SYSTEM
DEVELOPED FOR A QUICK
AND PROFESSIONAL
INSTALLATION.

Benefits

Decorative

Decofor is a professional fence with a contemporary design. The panels are robust and yet extremely elegant and decorative. The panels, posts and gates are perfectly harmonised.

High longevity

The coating technology of Betafence is state of the art and guarantees a high longevity. After galvanising an adhesion coating is applied for a perfect bond with the final polyester coating of minimum 100 micron.

Easy installation

The system is very easy to install. All elements are precisely integrated. The Decofor system allows installation between and on walls.

Complete system

The Decofor system consists of panels of different heights, adapted posts, single and double gates and installation accessories. All of one uniform design.

Decofor Recto

Decofor Arco

Panels

The panels are out of heavy welded fence, 2015 mm wide and available in 4 heights. The mesh size is 200 x 65 mm. The wires are very strong: horizontal double wires 8 mm and vertical 6 mm.

Gates

The Decofor system is totally finished and safely equipped with single and double Decofor gates.

Coating process

Panels, posts and gates are first galvanised. Minimum zinc coat: 40 g/m² (panels), 135gr/m² (posts), 350 g/m²(gates). For a perfect bond an adhesion coating and finally a polyester coating are applied of a minimum coat of 100 micron (panels and gates) and 60 micron (posts).

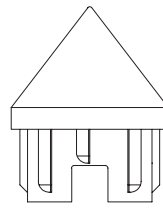

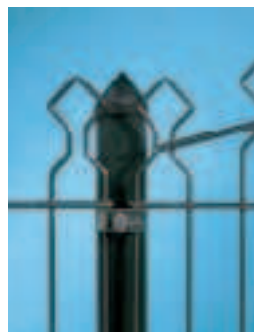

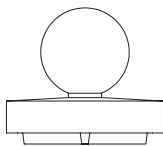

Colours

Decofor is standard available in black RAL 9005, white RAL 9010 and green RAL 6005. Other colours on request.

Posts & fixing system

The posts are welded square tubular posts with profile of 60 x 60 x 1,50 mm. For a decorative design the posts are supplied with a metal cap with ball, or PVC cap in pyramid shape.

Fixation of the panels to the posts with **ball cap**: by means of **metal fixing collars** (galvanized and plastic coated) and with security bolts M8 out of stainless steel with self breaking nut.

Fixation of the panels to the posts with **pyramide cap**: by means of **fixation clips in polyamide** and stainless steel M6 security bolts.

ASSORTMENT DECOFOR PANELS AND POSTS WITH CAP WITH BALL				
Arco Width x Height mm (middle of the panel)	Recto Width x Height mm	Hight of the posts mm		Quantity of collars per post
		For anchoring	Post with aluminium floorplate	
2015 x 886	2015 x 762	1500	965	2
